

Meeting in Germany, 26-29 August 2021

1. **The Corona crisis**

We started the meeting by discussing the Corona crisis and expressing how grateful we were for having been able to finish all but the 2 last meetings before it hit us. We agreed that the online Maribor meeting had been very successful. The Slovenian team had organized it well and the students work was successful. The Slovenian students presentation of their beautiful country only made the other students more sad that they had not been able to experience Slovenia first hand though.

Unfortunately, we had to change the last meeting place which should have been Rize as none of us were able to travel there. It was only just before the meeting in Berlin that the Turkish coordinator was able to buy tickets to Germany.

2. **Mobility Tool:**

While some of the teachers took a close and thorough look at the project Web site and Twinspace, the coordinators took a careful look at the mobility tool in order to make certain that everything was as it should be.

3. **Homepage: erasmustie.weebly.com**

The groups looked together at the website of the project and everyone agreed that it looked very good and the relevant information was there to be found. Sirry will change the Rise section to Berlin.

4. **Etwinning**

Adil showed the group that work that he had done on the Etwinning site. He will join together the national and international meeting to simplify the homepage. Bertha emphasized that only information related to the project should be there. There was also discussion about the lack of a blog or related information that we uploaded to the internet. It was also noted that the evaluation from Turkey was missing. These items will be taken care of.

5. **Final Report**

The head coordinator thanked her partners for the collaboration during the meeting on the final report. She will finish work on the final report when she returns home and will send questions or comments to participants if something should still be missing.

6. **Final Evaluation**

After a lively discussion we decided to create a final evaluation both for the meeting in Berlin and the whole project. A link was sent to the participants who wrote the evaluation, one for each country.

7. **Finances**

Bertha asked if anyone is in the black or in the red regarding the finances. Concern was expressed regarding the end payment as some of the partners had had expenses because of flight tickets that were never used due to cancelled flights and covid but had not re-embursed.

8. Bertha's retirement

Bertha announced her retirement at the end of the semester and everyone expressed thanks for the great job that she has done through the year.

9. Accreditation

The head coordinator also mentioned the importance of getting accreditation as the NA only wants to work with those schools. It turned out that most of the schools in the project had applied and received accreditation and they talked about the possibility of continuing working together.

10. Slovenian delegation introduced new projects that they are working on

The name of the first one was SEED project and the other one was Audit. Both are supposed to make communication easier in schools.

Saying goodbye to colleagues who over time have become dear friends

11. At the end of the meeting days the head coordinator noted that collaboration in this project had been exceptionally good and thanked everyone for the great cooperation and stated that such great cooperation is not something that is to be taken for granted in a project like this. Everyone agreed thanked each for working so well together.
